Lessons 7–11 · Review

Lesson 12

TIPS

- The prefixes **ap, as, ac, af,** and **at** often mean "toward," "at," "in addition to," or "near." The second letter in each of the prefixes **ap, as, af,** and **at** repeats the first letter in the root or base word.

  ap + **proval** = approval **af** + **fair** = affair
  as + **sert** = assert **at** + **tune** = attune

- The prefix **ac** is added to roots that begin with **c** or **q**.

  ac + **cent** = accent
  ac + **quire** = acquire

- The suffixes **ion** and **ation** are often added to verbs to make nouns that mean "the act of."

  express + **ion** = expression occupy + **ation** = occupation

- English words derived from French words can contain "spelling tricks." The usual French vowel and consonant spellings seem unusual to English-speaking people. For example, in French, the ending **et** often stands for the long **a** sound, as in gourmet. The consonant digraph **ch** may stand for the /sh/ sound, as in chaperone.

- Many English words have Latin roots. The English word compact, which means "closely put together," comes from the Latin **com** ("together") and **pango** ("to fasten"). Other English words are borrowed or derived from Latin words. The word district comes from the Latin **districtus**. Both words mean "territory."
